New Honda Hybrid electric car EPA mileage

H C

Car

The all-new Honda Hybrid electric car is a revolutionary new car that combines the best of both worlds. It's a car that's as smart as it is beautiful. With its advanced hybrid engine, it can run on gasoline or electricity. And it's got a lot of other cool features, too. Like a 150-hp engine, 24 valves, and a 5-speed automatic transmission. It's a car that's built to last. And it's a car that's built to impress.
